Responsibilities Of Process Owners/Role Players for CMRIS Services..... 19

INTRODUCTION

Purpose of the Standard Operating Procedure Manual

This Standard Operating Procedure (SOP) outlines the standardized process for managing the digitalized Central Motor Registry (CMR) within the Nigeria Police Force. It provides clear steps and guidelines to ensure the efficient, accurate, and secure operation of the digitalization process for motor vehicle records, along with related activities.

The SOP begins with the initiation of the CMR Digitalization project, detailing its objectives, key stakeholders, and required resources. It also assigns responsibilities to personnel for executing specific project processes and activities.

Furthermore, the SOP addresses the technological aspects of the project, including infrastructure, system design, and development. It recognizes the evolving nature of technology and anticipates the need for periodic updates to incorporate new advancements.

Overall, this SOP serves as an official document to guide the successful implementation and management of the CMR Digitalization project, ensuring adherence to organizational objectives and standards while maintaining operational efficiency and data integrity.

Responsibility for updating the Standard Operating Procedure Manual

The continual update of this manual primarily falls under the purview of the process owners and the Operations team at Frieden Global Technologies. Given the rapid pace of technological advancements, internal processes must promptly adjust to changes in the operating environment. It serves as a performance indicator for process owners to suggest updates to ensure sustained efficiency and effectiveness. However, any proposed changes must receive approval from the designated functional and process owners within NPF and Frieden Technologies. All modifications are to be documented by the CMRIS Team of the NPF and Frieden Technologies.

CMR.01.01 USER PROFILE MANAGEMENT ON CMRIS

Process Objective (Purpose):

To enable individuals to create and manage a profile on the CMRIS platform for requesting CMR certificates efficiently.

Process Scope:

Individuals and Corporate entities who require CMR certificates and need to create a profile or manage their profile on the CMRIS platform.

Process Owners:

CMRIS Team of the Nigeria Police Force, Vehicle Owners

Frequency: Daily

Module:

Public Portal of CMRIS

Procedure:

Resources Required: • Internet connectivity from Service Providers • Connectivity with NIN validation portal •	KPI(s): • Ensure 90% platform uptime.
Inputs • User's NIN (Individual) • Entity TIN or RC Number (Corporates) • Contact details of Users	Outputs • Validated User Profile

Task	Responsibility	Steps
Create Profile	Users (Vehicle Owners OR Corporate Representatives). Approved CMR Assistants	1.1 Open a web browser and navigate to https://cmris.npf.gov.ng/signup 1.2. Click on the "Get Started" button at the top right corner of the page to initiate the profile creation process. For Individual Users: 1.3.1. Choose "Personal" for individual profile creation. 1.3.2. Choose "National Identification Number (NIN)" as the identification type. 1.3.3. Enter the National Identification Number (NIN). 1.3.4. Click on the "Verify" button to confirm the NIN. 1.3.5. Confirm or enter a valid phone number and email address. 1.3.6. Input the token sent to the provided phone number/email. 1.3.7. If Token is not received, use the Call Me option to listen to Token. 1.3.8. Click on "Confirm" to conclude the identity verification process. 1.3.9. Confirm your personal information : a. Select gender b. Confirm current address against address pre-filled from NIMC database (Registered Address) c. Where address is same, click on Yes d. Where address is different, click on No and input current address, state of residence and current LGA of residence. e. Create Login password and Confirm Login password 1.3.10 Click on Next to Complete Registration. For Corporate Entities: 1.4.1. Select Organisation for corporate entity profile creation. 1.4.2. Under Identification type, select tax identification number (TIN) and input the TIN (e.g. 123456-1001) OR select corporate affairs commission (CAC) and input registration number (e.g. RC12345/ BN12345/ BT12345) 1.4.3. Click Verify 1.4.5. Confirm or enter valid phone number and email address. 1.4.6. Input the token sent to the provided phone number/email. 1.4.7 If Token is not received, use the Call Me option to listen to Token. 1.4.8. Click on "Confirm" to conclude Identity Verification process. 1.4.9 Create Profile for the Organisation's representative. 1.4.10 Under identification type, Select National Identification Number (NIN) and input NIN 1.4.11 Click Verify and confirm or enter valid Phone Number and Email For User Registration Via Approved CMR Assistants: 1.5.1. Approved CMR Assistant navigates to https://cmrassist.npf.gov.ng 1.5.2 CMR Assistant logs in with username and password and is redirected to service page to choose the service the user wants to apply for. 1.5.3. Select CMR request, CMR sub-requests and select Number of Request to specify if request is for Fleet or Single and click on Continue. 1.5.4. CMR Assistant chooses the type of owner profile (Personal or Organization), selects the ID type (NIN for individual/ CAC or TIN

		for Corporates) and inputs ID Number of the user on Vehicle Owner Information page. 1.5.5. User confirms to the CMR assistant that the pre-filled details pulled from NIMC/ CAC database are correct. 1.5.6. Where updates are required, CMR assistant updates with details provided by the user. 1.5.8 Click Next to complete registration and proceed with CMR request.
Edit Profile Information	Users (Vehicle Owners OR Corporate Representatives).	2.1. Click on Hello "your name" on the top right corner of the page. 2.2 Click on Profile from the drop-down list. 2.3 View your Profile, only the current email and current address fields can be edited. 2.4 Click on Edit to change the information and click on Save to save the edited information
View CMR Service Request(s) Log/History	Users (Vehicle Owners OR Corporate Representatives).	3.1 Click on the "Hello [Your Name]" option located at the top right corner of the page upon logging in to the CMRIS platform. 3.2 Select "Request" from the dropdown menu. 3.3 View the list of requests associated with your account. The list provides the following information: a) Request Date b) Request Number c) Request Type d) License Plate e) Vehicle Status (on CMR) f) Vehicle Make/Model g) Invoice/Receipt Number h) Payment Status i) Request Status j) Action (the options depend on Vehicle Status) 3.4 For incomplete requests, take the following actions: 3.4.1 Click on "Make Payment" to complete any pending requests. 3.4.2 Click on "Confirm Payment" to verify successful payment. 3.4.3 Click on "Regenerate" to create a new request and proceed with payment. 3.5 For completed requests, take the following actions: 3.5.1 Click on "View Request" to review information for requests that are still in processing status. 3.5.2 Click on "View Certificate" to access certificates for requests that have been processed and approved.
Password Reset	Users (Vehicle Owners OR Corporate Representatives).	4.1 Open a web browser and navigate to https://cmris.npf.gov.ng/login 4.2 From the login page, click on Reset at the bottom of the page beside the Forgot Your Password Tab 4.3 Enter registered phone number or email 4.4 Enter token sent to registered phone number or email and confirm token 4.5 To reset password, Input new password and Confirm new password. 4.6. Click on Change to set new password.

Risk Assessment and Control Analysis:

KEY RISKS	KEY CONTROLS	OPPORTUNITIES	ACTIONS
• User confusion due to navigation. • Token not received. • Downtime on NIN validation gateway. • Unauthorized linkage of NINs to vehicles. • Invalid data entry for corporate enrolments.	• Provide clear instructions and navigation. • Alternate verification means provided – “Call Me” option. • Implement redundancy measures for identity validation. • Strengthen data validation protocols.	• Streamlined and Enhanced user experience. • Continuous Service Availability • Data Security Enhancement • Data Integrity Enhancement	• Provide user training and support materials. • Provision of clear instructions for users encountering token delivery issues. • Implement automatic workaround validations to minimize effect of NIN downtime. • Implement stringent authentication processes. Regularly audit and review NIN-CMR linkages via QA testing. • Implement validation checks for corporate enrolment data. Train users on accurate data entry practices.

CMR.01.02 APPLICATION FOR CMRIS SERVICES

Process Objective (Purpose):

The objective of this process is to guide users, both individuals and organizations, on how to request various CMR services through the CMRIS platform.

Process Scope:

Users with registered profiles on the CMRIS platform.

Process Owners:

CMRIS Team of the Nigeria Police Force, Vehicle Owners

Frequency: Daily

Module:

Public Portal of CMRIS

Procedure:

Resources Required: • Internet connectivity from Service Providers • Validated User Profiles • Uptime on payment gateways • Evidence of Payment for Service(s) Requested	KPI(s): • Ensure 90% platform uptime. • 95% Straight Through Processing
Inputs • User's / Entity's validated user profiles • Vehicle Plate number • Vehicle Chasis Number • Vehicle Engine Number • Evidence or confirmation of payment	Outputs • CMR Certificate (PDF & Barcode)

Task (Service Request)	Responsibility	Steps
Motor Vehicle Information	Users (Vehicle Owners OR Corporate Representatives). Approved CMR Assistants	1.1 Visit CMRIS website https://cmris.npf.gov.ng (for individual or corporate users) or https://cmrassist.npf.gov.ng (for CMR Assistants) 1.2 Click on Get Started 1.3 Click on Login here to go to the login page. 1.3.1 Enter login details and Enter 1.4 Choose CMR request. 1.4.1 Under CMR request, select CMR information. 1.4.2 Under CMR sub request, select Motor Vehicle Information (New). 1.4.3 Under Select Number of Request, select single/fleet. 1.4.4 Under Request By, select Self. 1.4.5 Click continue. 1.4.6 Input motor vehicle details on the Motor Vehicle Information Portal. 1.4.7 If the vehicle already has a registered license plate number, select Registered Plate Number but if the vehicle is yet to be issued a plate number, select New Plate Number 1.4.8 Input VIN/Chassis number 1.4.9 Input engine number 1.4.10 Input vehicle make. 1.4.11 Input vehicle model 1.4.12 Input vehicle type 1.4.13 Input vehicle year 1.4.14 Input vehicle usage 1.4.15 Input Vehicle colour 1.4.16 Input source of Vehicle (imported or locally assembled) 1.4.17 Input state licensing office (state the first vehicle license was issued) 1.4.18 Input state requesting from (state the current license is being issued) 1.4.19 If you selected fleet, click on Add to request CMR certificate for another vehicle. 1.4.20 After adding the information of all the vehicles you want to register, click on proceed. 1.4.21 Click on the check box to confirm the information provided is correct. 1.4.22 Click on proceed to continue to view payment invoice. 1.5 Click on make payment. 1.5.1 Select payment option: i. Card ii. Bank account iii. Bank branch iv. USSD v. QR code vi. Internet banking vii. Remita viii. Wallet ix. Phone number x. Bank transfer 1.5.2. Input payment details 1.5.3 Input OTP 1.5.4. Make payment.

		1.5.5 View receipt and print/download 1.5.6 Click on finish. 1.6 Wait for 24 to 72 hours for request processing.
Motor Vehicle Information (Renewal)	Users (Vehicle Owners OR Corporate Representatives). Approved CMR Assistants	2.1 Visit CMRIS website https://cmris.npf.gov.ng 2.2 Click on Get Started 2.3 Click on Login here to go to the login page and input login details. 2.4 Click on Hello [Username] at the top right of the screen. 2.5 Click on Requests to view your existing registrations. 2.5 Click on Renew, where Vehicle Status is Expired. 2.6 Select Request State and click OK. 2.7 Remita RRR is generated and connects you to payment page 2.8 Make payment. 2.9 View receipt and print/download 2.10 Click on finish. 2.11 Wait for 24 to 72 hours for request processing.
Change of Motor Vehicle Ownership	Vehicle Owner (Seller) Approved CMR Assistants	3.1. Visit CMRIS website https://cmris.npf.gov.ng 3.2. Click on Get Started 3.3. Click on Login here to go to the login page and input login details. 3.5 Select CMR request. 3.5.1 Under CMR request, select CMR information. 3.5.2 Under CMR sub request, select Motor Vehicle Change of Ownership. 3.5.3 Select vehicle from your list of vehicles you wish to transfer ownership to another person and click continue. 3.5.4 Under New Owner ID Verification, indicate if the new owner has a profile on the CMR platform. 3.5.5 If the person has a profile, click Existing Profile and continue with the form. 3.5.6 If the person does not have a profile, click New Profile to create a profile for the new owner on the CMR portal and then continue with the form. 3.5.7. Input the state the new owner is requesting from (State where purchase/transfer is occurring) 3.5.8 Under Search New Owner Details, select the type of Identifier that will be used to search the new owner. a. Phone Number b. Email c. National Identification Number d. Tax Identification Number (For Corporate Entities) 3.5.9 Enter the details of the new owner. a. Phone number of the new owner if the identifier option selected is phone number b. Email address of the new owner if the identifier option selected is email e. NIN of the new owner if the identifier option selected is National Identification Number f. TIN of the new owner (where new owner is a corporate entity) if the identifier option selected is Tax Identification Number 3.5.10 Select the type of document to show proof of transfer of ownership. a. Affidavit b. Deed of Transfer c. Receipt

		d. Sales Agreement 3.5.11 Upload copy of the proof of transfer of ownership and click continue 3.5.12 Enter verification token sent to the email address and phone number of the new owner 3.5.13 Request Confirmation – Tick the Check Box to confirm correctness of information and click Proceed. 3.5.14 View invoice and click on Make Payment. 3.5.15 Select payment option. i. Card ii. Bank account iii. Bank branch iv. USSD v. QR code vi. Internet banking vii. Remita viii. Wallet ix. Phone number x. Bank transfer 3.5.16 Input payment details 3.5.17 Input OTP sent to registered phone number or email. 3.5.18 Make payment. 3.5.19 View receipt and print receipt if you choose to 3.5.20 Click on finish 3.6 Wait for 24 to 72 hours for request processing.
Tint Glass Permit	Registered Users (Vehicle Owners OR Corporate Representatives). Approved CMR Assistants	4.1 Visit CMRIS website https://cmris.npf.gov.ng. 4.2 Click on "Get Started." 4.3 Click on "Login here" to access the login page and enter login details. 4.4 Select CMR request. 4.5 Under CMR request, select CMR information. 4.6 Under CMR sub request, select Motor Vehicle Tint Permit. 4.7 Select the vehicle you wish to apply for a tint permit and click continue. 4.8 Complete the Tint Permit request by providing: -State requesting from. -Reason/Cause: -If the reason is health, upload the Health Report. -If the reason is security, select your personality type. 4.8.1 Click proceed after providing the requested information. 4.8.2 Click on the check box to confirm the information provided is correct. 4.9 Click on proceed. 4.10 View the invoice and click on Make Payment. 4.10.1 Select payment option: -Card -Bank account -Bank branch -USSD -QR code -Internet banking -Remita -Wallet

		-Phone number -Bank transfer 4.10.2 Input payment details. 4.10.3 Input OTP. 4.10.4 Make payment. 4.11 View receipt and print receipt if you choose to. 4.12 Click on finish. 4.13 Wait for a week for your request to be processed.
International Driving Permit	Registered Users (Individuals). Approved CMR Assistants	5.1 Visit CMRIS website https://cmris.npf.gov.ng/login . 5.2 Enter Username and Password then click Login. 5.3 Choose CMR request. 5.3.1 Under CMR request, select Other Requests. 5.3.2 Under CMR sub request, select International Driving Permit. 5.4 Verify Driver's License by inputting driver's licence number. 5.5 Input International Driver's Licence information, including: a) Colour of eyes b) Height c) Country of birth d) Date of birth e) Licence class f) Request state 5.6 Click proceed after providing the requested information. 5.7 Click on the check box to confirm the information provided is correct. 5.8 Click on proceed. 5.9 View the invoice. 5.10 Click on make payment. 5.11 Select payment option: i. Card ii. Bank account iii. Bank branch iv. USSD v. QR code vi. Internet banking vii. Remita viii. Wallet ix. Phone number x. Bank transfer 5.12 Input payment details. 5.13 Input OTP. 5.14 Make payment. 5.15 View receipt and print receipt if you choose to. 5.16 Click on finish. 5.17 Wait for a week for your request to be processed.
Flagging Stolen Vehicle	Vehicle Owners Approved CMR Assistants	6.1 Click on Hello "your name" on the top right corner of the page 6.2 Click on Request from the drop down list 6.3 Under Action, click on Flag if Stolen. 6.4 Read pop up message "The status of this vehicle will be flagged as Stolen and broadcast to Police formations nationwide for recovery. The status will be changed after the vehicle is recovered" 6.5 Confirm vehicle as stolen and click on Proceed.

Risk Assessment and Control Analysis:

KEY RISKS	KEY CONTROLS	OPPORTUNITIES	ACTIONS
• Invalid data entry • Delayed approval of requests • Downtime of identity confirmation gateways (NIMC/CAC) • Downtime on payment gateways • Over-commercialization of process by CMR Assistants	• Implement data validation checks. • Establish service level agreements (SLAs) with Command Centre Approvers. • Implement redundant systems for identity confirmation such as BVN or Drivers Licence in addition to NIN. • Regular maintenance and updates of identity validation gateways. • Use of multiple payment gateways. • Implementation of strict guidelines for CMR Assistants.	• Improved data accuracy and analytics. • Enhanced user experiences. • Improve system reliability. • Ensure smooth process flow during downtimes. • Promote accountability and responsibility for CMR Assistants and data processors	• Provide training on data entry procedures and the importance of data quality. • Monitor request processing times and address bottlenecks. • Have backup systems in place for identity confirmation. • Monitor identity and payment gateway performance and address issues promptly. • Provide alternative payment methods and communication channels. • Regular audits and monitoring of CMR Assistant activities.

CMR.01.03 ADMINISTRATION OF CMRIS SERVICE REQUESTS

Process Objective (Purpose):

To ensure efficient administration and management of CMR service requests and analysis within the Nigerian Police Force (NPF) Central Motor Registry (CMR) unit.

Process Scope:

Users with registered profiles on the CMRIS platform.

Process Owners:

All functions within CMRIS Unit of the Nigeria Police Force, Enforcement Officers

Frequency: Daily

Module:

Admin Portal of CMRIS

Procedure:

Resources Required: • Internet connectivity from Service Providers • Validated Admin Profiles • Uptime on payment gateways • Information uploaded on public module of CMR portal	KPI(s): • Processing turnaround time of 24-48 hours. • Efficient and Error-Free Request Processing
Inputs • Validated admin profiles • Vehicle details • Uploaded Documentation	Outputs • Validated -CMR User Requests

Task (Service Request)	Responsibility	Steps
Accessing the CMRIS Admin Portal	- Head of Central Motor Registry (CMR) - Heads of CMR Command Centers - CMR Command Centers Reviewers/Analyzers - CMR Information Center Head - CMR Information Center Operatives	For CMR Command Centre 1.1. Open a web browser and navigate to https://npfcmr.ng. 1.2. Log in using your Username and Password. 1.3. Review the dashboard for pending requests and actions required. 1.4. Access different stages using the left side pane: Requests, Assigned, Processed, and Finalized. 1.5. Assign requests to Analysers and monitor their progress. 1.6. Ensure timely reassignment of requests not treated within 24 hours.
Review and Analysis of CMR Requests	- CMR Command Centers Reviewers/Analyzers - CMR Information Center Operatives	CMR Information Centre 2.1 Open a web browser and navigate to https://npfcmr.ng. 2.2 Log in using your Username and Password. 2.3 Review the dashboard for assigned requests and pending processing/analysis. 2.4 Access the "Motor Vehicle Information" function to view and analyze requests from the left side pane (Requests). 2.5 Click on Motor Vehicle Information to view the list of Requests assigned for analysis/processing. 2.6 Under Action column, click on Detail to view the data to analyze, enter your comments (Mandatory. E.g. "Cleared for approval please", "Conflict in information provided", "To be referred for further investigation", etc) 2.7 Treat all assigned requests within 24 hours and click on Cleared or Not Cleared to submit the result of your analysis. 2.8 Submit analysis results promptly and communicate any issues hindering analysis to the Head of Command Centre for resolution or escalation
Enquiry/Investigation & Correction	- CMR Information Center Head - CMR Command Center Head - Head of CMR	3.1 Visit the CMRIS portal via https://npfcmr.ng. 3.2 Enter your Admin Portal credentials to log in. 3.3 Access Enquiry/Investigation: 3.4 On the left side pane, click on Enquiry/Investigation. 3.5 Select Enquiry Type: i. CMR Information ii. Stolen Vehicle iii. Incident iv. CMRIS User Profile 3.6 Search for Vehicle: 3.6.1 Enter the License or Chassis Number of the vehicle. 3.6.2 Click on the Search button. 3.6.3 View Vehicle Details: 3.6.4 If the vehicle is found in the list, click on Details to view more information. 3.7 Initiate Correction for Vehicle Detail: 3.7.1 CMR Command and Information Centres Heads to initiate corrections for critical and non-critical data. 3.8 Correct typographical errors or omissions in Chassis Number, License Plate Number, Engine Number, Vehicle Make, Model, Type, Year, Color, and MLA where licensed. 3.9 Enter the correct data (New Value) and Reason for the change.

		3.10 Submit for approval before the correction takes effect. 3.11 View Request Details: 3.12 Select the request details to view by clicking on the down arrow. 3.13 View or print the Certificate. <i>Caveat: Requests for corrections not submitted within 30 days of approval of an application shall be referred to the CMR Headquarters for necessary action.</i>
CMR Conflict Resolution	• Head of Central Motor Registry (CMR) • Heads of CMR Command Centers • CMR Information Center Head	4.1 Visit the CMRIS portal via https://npfcmr.ng. 4.2 Enter your Admin Portal credentials to log in. 4.3 Review the dashboard for assigned requests with conflicts. 4.4 Identify the type of conflict encountered during the CMR application review process: 4.4.1 Application Conflicting with Itself: Follow steps 3.4 – 3.10 . 4.4.2 Only Plate Number or Chassis Number Conflicting: • Request the applicant to provide their motor vehicle documents to verify the accuracy of the vehicle details. • If the details are correct, ask the owner of the conflicting vehicle to verify their information. • If discrepancies persist, refer the matter to the police for investigation. • All Vehicle Information Conflicting Apart from Plate Number: • Inquire if the applicant recently purchased the vehicle from someone. • If yes, advise the applicant to request a change of ownership to resolve the conflict. • If not, verify the accuracy of the applicant's vehicle details and then verify the conflicting owner's information. • If discrepancies persist, refer the matter to the nearest police division for investigation. 4.4.3 All Vehicle Details Conflicting with Another Vehicle: • Request the applicant to provide their motor vehicle documents to verify the accuracy of the vehicle details. • If the details are correct, ask the owner of the conflicting vehicle to verify their information. • If discrepancies persist, refer the matter to the police for investigation. • All Vehicle Information Conflicting Apart from Plate Number: • Inquire if the applicant recently purchased the vehicle from someone. • If yes, advise the applicant to request a change of ownership to resolve the conflict. • If not, verify the accuracy of the applicant's vehicle details and then verify the conflicting owner's information. • If discrepancies persist, refer the matter to the nearest police division for investigation.
Unflagging a Vehicle Reported as Stolen	• Head of Central Motor Registry (CMR) • Heads of CMR Command Centers • CMR Information Center Head • CMR Tech Team	5.1 Verify that the recovered vehicle meets the criteria for unflagging, i.e., it has been certified as recovered by the CMR Information Centre head in the respective state. 5.2 Certification by CMR Information Centre Head: 5.2.1 The CMR Information Centre head in the state where the vehicle was stolen certifies that the vehicle has been recovered.

		5.2.2 The certification should include the following information: i. Date and time of recovery ii. Place of recovery (state and local government) iii. Police formation that handled the matter iv. Name of the requesting CIC 5.3 The CMR Information Centre head sends an email to cmrtech@npfcmr.ng providing the certification and all required information on the recovered vehicle. 5.4 The CMR tech team verifies the information provided in the email and ensures that all necessary details are accurate. 5.5 Once verified, the CMR tech team updates the CMR database to unflag the vehicle as stolen. N.B: No edits can be made to any vehicle flagged as stolen
--	--	---

Risk Assessment and Control Analysis:

KEY RISKS	KEY CONTROLS	OPPORTUNITIES	ACTIONS
- Delayed assignment and approval of requests - Downtime from Internet Service Providers. - Data Security Breach	- Implement automated assignment systems. - Establish clear timelines for processing requests. - Regularly review workload distribution. - Implement redundant internet connections. - Monitor ISP performance regularly. - Implement encryption for sensitive data. - Enforce strong password policies. - Implement multi-factor authentication.	- Improve workflow efficiency. - Enhance user experience. - Improve reliability of service delivery. - Enhanced credibility and public perception	- Regular monitoring of request queues and escalations when requests exceed TAT. - Provide additional resources during peak periods. - Maintain backup internet providers. - Conduct regular security audits. - Conduct refresher train on cybersecurity best practices. - Develop a response plan for breaches, including containment.

CMR.01.04 RESPONSIBILITIES OF PROCESS OWNERS/ROLE PLAYERS FOR CMRIS SERVICES

Objective (Purpose):

The following outlines the key responsibilities of each role player within the Central Motor Registry (CMR) unit of the Nigerian Police Force. The role players collectively contribute to the administration, operation, and management of the CMR unit, ensuring effective service delivery and adherence to established procedures and timelines

Scope:

- Head of Central Motor Registry (CMR)
- Heads of CMR Command Centres (FHQ Abuja and FHQ Annex Lagos)
- CMR Command Centres Analysers
- CMR Information Centre Head (36 States and the FCT)
- CIC Operatives

Definition of Process Owners/Role Players:

These role players collectively contribute to the administration, operation, and management of the CMR unit, ensuring effective service delivery and adherence to established procedures and timelines

1. Head of Central Motor Registry (CMR)

- Overall Management: Exercise control over human and material resources of CMR formations nationwide.
- Coordination: Coordinate administrative and operational activities of CMR across the federation, reporting to higher-level management.
- Liaison: Serve as the interface between CMR and external bodies/stakeholders on motor vehicle administration issues.
- Profile Creation: Create profiles for approved Role Players on the CMRIS platform.
- Resource Deployment: Deploy and monitor CMR Enforcement resources within State Commands.
- Platform Administration: Administer the CMRIS platform in conjunction with the Project Consultant.

2. Heads of CMR Command Centres (FHQ Abuja and FHQ Annex Lagos)

- Centre Administration: Oversee the administration and operations of CMR Information Centres in State Commands.
- Interface: Serve as the interface between NPF CMR and Motor Vehicle Licensing Authority.
- Request Assignment: Assign requests for CMR services to Supporting Staff (Operatives) within the Centre.
- Request Review: Review processed requests and forward them for approval.
- Operational Efficiency: Administer the Centre for operational efficiency and management of role players.
- Resource Monitoring: Monitor CMR Enforcement resources deployed by State Command's CP.
- Data Entry: Ensure timely entry of incident reports into the CMRIS Database.

3. CMR Information Centre Head (36 States and the FCT)

- Information Tracking: Track and collect real-time information about vehicle theft and other vehicle-associated incident reports.
- Database Entry: Ensure timely entry of incident reports into the CMRIS Database.

4. CMR Command Centres Analysers

- Request Processing: Process requests for CMR Services assigned by the Head of the Centre within set timelines.
- Incident Reporting: Ensure timely entry of incident reports into the CMRIS Database.
- Task Execution: Carry out tasks assigned by the Head of CIC, including data entry of incident reports.

5. CMR Information Centre (CIC) Operatives

- Task Execution: Execute tasks assigned by the Head of CIC, including analyzing requests for CMR services and data entry of incident reports.
